

**MADE FOR
SAFETY:
HellermannTyton
Hela-Vis**

Application

The Hela-Vis is a high quality protective visor which is designed to protect the wearer from droplets which spread infections.

This product is designed and manufactured in the UK.

Features and Benefits

- Shatterproof Polycarbonate material
- Ergonomic design will give a stable and secure fit
- The TPE straps provide a soft and comfortable fit and they are fully adjustable
- The TPE straps also ensure the weight of the visor is taken off the head
- The design incorporates features so that the visor fits flush to the side of the head to maximize protection
- The curved design provides full face coverage and the headband ensure the shape is kept in place
- Foam headband insert included for extra comfort if required
- Can be disassembled and cleaned multiple times to enable repeated use
