

**MADE FOR SAFETY**  
New Mask E-Guard

Easy to fit,  
easy to  
clean

\*image shows two pieces, there is an option to use 1, 2 or more pieces depending on headsize\*

## Application

The Mask E-Guard is designed to relieve tension and strain from the ears when wearing face masks. The unique design attaches to the mask so the elastic is positioned away from the ears.

Available in packs of 12 and on reels of 250, for personal and industrial uses.

## Features and Benefits

- Soft comfortable material
- Multiple tags join together for "one size fits all"
- Smooth material which is easy to clean
- Ideal for use with disposable facemasks
- Reusable
- Customer branding available upon request

Includes fixing design to prevent dropping.
